Atlas Understands The Manufacturing Industry

Atlas General Insurance Services offers workers' compensation insurance solutions for select retail insurance brokers. Our expertise in developing specialized programs with insurance carriers has earned Atlas the authority to make underwriting decisions and provide quality options for your clients.

Make it, package it, distribute it. We can cover it!

Atlas understands the unique challenges of manufacturing, and has developed specialty workers' compensation programs to meet these needs. Our programs feature competitive rates, creative commission structures, and exceptional loss control and claims services for your clients allowing us to be a market leader in manufacturing-related classes.

Appetite includes all machine shops, plastics manufacturing, textile manufacturing, wood products manufacturing, aircraft parts manufacturing, auto parts manufacturing, and plastics/glass/metal manufacturing accounts with other classes considered on a case-by-case basis. For a complete list of eligible class codes, visit www.atlas.us.com/pdf/Atlas-General-Underwriting-Appetite.pdf

To learn more about our products or find out how to become a Producer Partner, call us at (877) 66-ATLAS or visit www.atlas.us.com.

Our Success Depends Upon:

- Relationships built on trust
- Products that win
- Responsive employees that strive to make the most out of every opportunity
